

ISO 9001 : 2000

Ford Atlantic partners with its customers to produce custom parts at a price that provides savings for their bottom-line along continued satisfaction for the long-term.

We are a global supplier and distributor of metal, plastic, and rubber components as well as various other parts for over 2,000 customers across the United States. We have longstanding relationships with dozens of factories worldwide that have been producing parts for us for over 30 years. We have our own internal quality assurance department with degreed engineers who oversee all inspection of samples and production produced by our manufacturing facilities. We are able to provide financing for purchases to enable our customers better pricing based on volume and have the ability to provide inventory control and warehousing of parts to ensure short lead times and sustained stock levels on parts.

We welcome the opportunity to meet with you to learn about your business and how Ford Atlantic can assist your business today!

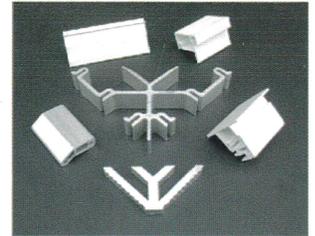

FASTENERS AND COLD HEADED PARTS

We supply an endless variety of standard and custom fasteners in a wide range of sizes, drives, head types, point types, finishes and materials. Our customers benefit from Ford Atlantic's years of developed sources and technical expertise.

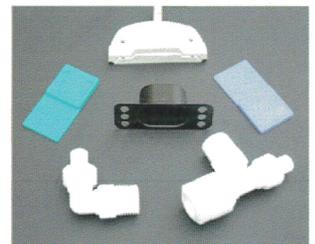

EXTRUSIONS

Our knowledge and experience allow us to create superior extrusions from various materials. We have manufacturing processes capable of extruding profiles of any practically any dimension and profile. In fact, this allows you nearly limitless design flexibility with almost any combination of requirements or materials needed. From aluminum to vinyl for windows and Cellular PVC for composite trim and flooring, Ford Atlantic has you covered.

PLASTIC & RUBBER INJECTION MOLDING

We offer a complete suite of capabilities focused on getting parts produced as economically as possible, while maintaining the highest quality standards. To facilitate the production of quality molds that will last through countless runs, Ford Atlantic provides superior tooling for large and small quantity requirements. We have the ability to handle any type of material within the plastic and rubber spectrum.

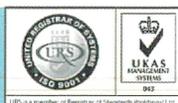

ASSEMBLIES

From a two-piece assembly to a complex 100-piece part, Ford Atlantic has the capability to provide completed, validated assemblies to a wide array of industries. It has been a tremendous value to our customers because it cuts down on their current labor costs while saving production time to produce the finished component. Assemblies are furnished in many different profiles to customer specification. Complete from our overseas factories, as well as performing in-house assembly from individual components and/or finishing the assembly from sub-assemblies, Ford Atlantic gets the job done for you.
